04/28/2025		Nissan North America Inc.	**Manufacturer Service Campaign issued** - Campaign #P4A47 ROGUE TURBO HOSE NTB25-023 - Status: Remedy Available Locate an authorized Nissan dealer near you to obtain more information about this campaign **Learn more about this campaign**

Description: Affected vehicles might emit a fuel odor when using winter grade fuel due to fuel vapor permeation, which could be noticeable in or around the vehicle. However, there is no leakage of liquid fuel.

Owners of affected vehicles might notice a fuel odor in or around their vehicle. However, there is no leakage of liquid fuel.

Remedy: Dealers will remedy this issue by replacing the turbo hose with updated parts.

11/13/2025	Nissan North America Inc.	**Manufacturer Safety recall issued** - NHTSA #25V-437 - Recall #R25D1 ROGUE MY2123 KR ENG NTB25055 - Status: Remedy Available Locate an authorized Nissan dealer near you to obtain more information about this recall **Learn more about this recall**

Description: Nissan has identified potential manufacturing defects affecting engine bearings in certain 3-cylinder 1.5L Variable Compression Turbo (VC-Turbo) engines. Such defects can lead to engine damage and in some cases, complete engine failure.

Bearing degradation typically occurs progressively rather than suddenly. As a result, potentially affected vehicles often exhibit multiple early warning signs, including unusual engine noises, rough engine performance, illumination of the malfunction indicator light (MIL), and warning messages displayed in the instrument cluster. Should the engine fail while the vehicle is in motion, it may result in a loss of motive power, increasing the risk of a crash. In certain rare cases, a bearing failure may cause a breach in the engine block, allowing hot oil to be discharged, increasing the risk of an engine fire.

Remedy: Nissan is launching the remedy for these vehicles. Dealers will reprogram the Engine Control Module (ECM) and conduct a test drive. If the inspection determines an engine replacement is necessary, dealers will replace the engine.

CARFAX Glossary

Accident Indicator
CARFAX receives information about accidents in all 50 states, the District of Columbia and Canada.

Not every accident is reported to CARFAX. As details about the accident become available, those additional details are added to the CARFAX Vehicle History Report. CARFAX recommends that you have this vehicle inspected by a qualified mechanic.

- According to the National Safety Council, Injury Facts, 2021 edition, 5% of the 276 million registered vehicles in the U.S. were involved in an accident in 2019. Over 77% of these were considered minor or moderate.
- This CARFAX Vehicle History Report is based only on information supplied to CARFAX and available as of 9/22/26 at 9:52:51 AM (CDT). Other information about this vehicle, including problems, may not have been reported to CARFAX. Use this report as one important tool, along with a vehicle inspection and test drive, to make a better decision about your next used car.

Damage Severity
Damage events result in one of the following severity levels:

- Minor: Generally, minor damage is cosmetic (including dents or scratches), may only require reconditioning, and typically does not compromise a vehicle's operation and/or safety.
- Moderate: Moderate damage may affect multiple components of the vehicle and may impair the vehicle's operation and/or safety.
- Severe: Severe damage usually affects multiple components of the vehicle and is likely to compromise the vehicle's operation and/or safety.

CARFAX recommends getting a pre-purchase inspection at a certified collision repair facility.

First Owner
When the first owner(s) obtains a title from a Department of Motor Vehicles as proof of ownership.

Manufacturer Recall

Automobile manufacturers issue recall notices to inform vehicle owners of a safety defect or failure to meet minimum federal safety or emissions standards. Manufacturer recalls are repaired at no cost to the customer.

New Owner Reported
When a vehicle is sold to a new owner, the Title must be transferred to the new owner(s) at a Department of Motor Vehicles.

Ownership History
CARFAX defines an owner as an individual or business that possesses and uses a vehicle. Not all title transactions represent changes in ownership. To provide estimated number of owners, CARFAX proprietary technology analyzes all the events in a vehicle history. Estimated ownership is available for vehicles manufactured after 1991 and titled solely in the US including Puerto Rico. Dealers sometimes opt to take ownership of a vehicle and are required to in the following states: Maine, Massachusetts, New Jersey, Ohio, Oklahoma, Pennsylvania and South Dakota. Please consider this as you review a vehicle's estimated ownership history.

Service Campaign
Automobile manufacturers issue a service campaign to address product technical issues that may not be related to safety or emissions standards. These issues are typically customer satisfaction initiatives.

Title Issued
A state issues a title to provide a vehicle owner with proof of ownership. Each title has a unique number. Each title or registration record on a CARFAX report does not necessarily indicate a change in ownership. In Canada, a registration and bill of sale are used as proof of ownership.
